 - ↳ **A non- labeled cleaning solution**, heated at 38°C
 - ↳ **Micro-Organisms Tablet**, regenerating the solution
- Brush & Soaking area
- Safe, solvent free, non-flammable, protection (%) of the operator and the environment

3. TECHNICAL CHARACTERISTICS

Parts Washer Dimension	L 905 x l 650 x H 1110 (mm)
Working Area Dimension	L 790 x l 420 x H 180 (mm)
Empty Weight	40 kg
Tank Capacity	100 liters
Soaking Area Volume	31 liters / Soaking Height : 90 mm.
Pump Flow	1140 liters / H
Heating Power	1 KW
Electric Consumption	170 W/H (Eco Mode 12H/day : reduction of 25%)
Payload	80 kg
Standard temperature	38°C (boost Mode: 43°C : +50% for cleaning performance)
Composition	PEMD
Tool Holder	Interchangeable Brush
Stainless Steel Filtration	700 µ (basket filter) + 140 µ (external filter)
Power Supply	115 V
Height Drain	390 (mm)
Mobile	2 integrated wheels + 2 integrated wheels with brake

MAIN CHARACTERISTICS

- Premium model
- Important soaking area
- Mobile
- Digital control box
- Interchangeable Tool Holder

END USERS BENEFITS

- Health & Safety
- Cleaning Performance
- Control of the Budget
- Environment

ADDITIONAL PRODUCTS

- 1 – MASTER SOLUTION
- 2 - Micro-organisms MASTER TABS
