Model CM400 Mobile Wash Tank

Product Data Sheet

Solvent Only

Overview

Fountain products are USA designed and manufactured rooted in half a century of expertise building commercial grade equipment engineered for the rigors of industry. Our designs benefit from continuous improvement from modern technologies and materials, valuing the voice of the customer, and a desire to lead and never follow. The CM400 Mobile Wash Tank is our compact and high maneuverable wash tank on caster wheels and wide lifting edges to move and position anywhere powered washing is needed. The CM400 comes with either an electric or air driven pump and flow-through wash brush.

Function

Low profile construction on caster wheels with swivel handle allows this machine to maneuver into position. The flow-through wash brush provides powered cleaning solution at your fingertips. The machine is available in both electric and air powered configurations. Large 32" x 22" work area and 12-gallon sump provide ample room and high capacity.

Application

Industrial Cleaning, Automotive Service/Repair, CNC Fabrication Rinse, Agricultural Fabricators, Agricultural Maintenance/Repair, Power Sports Shops, Government Municipalities, Aerospace, Post Processing, Military Service/Repair

Product Highlights

Built in caster wheels and handle create a highly mobile washing platform.

Industry leading work area with a 32" x 22" tank and 30" width between the raised lids, and minimal overhangs allow tight space fitment.

Available in a variety of configurations including both electric and air and available under our Ecomaster EM400 aqueous variant.

Additional versatility allows removal of caster wheels to convert to a large format tabletop or rolling cart parts washer.
