EM6000

Manual Tank Washer

Product Data Sheet

Aqueous Only

Overview

Fountain products are USA designed and manufactured rooted in half a century of expertise building commercial grade equipment engineered for the rigors of industry. Our designs benefit from continuous improvement from modern technologies and materials, valuing the voice of the customer, and a desire to lead and never follow. The EM6000 is our largest plastic sink, aqueous manual parts washer configured in sink over tank basin format, dry work zone with the option to close the sink drain and submerge parts in the sink area for soaking.

Function

The manual parts washer features a large full-footprint sink area and workflow tools, including a flow-through scrubbing brush and flexible rinse spigot. The sink over tank basin style offers full solution isolation for reduced evaporation.

Application

Industrial Cleaning, Automotive Service/Repair, CNC Fabrication Rinse, Agricultural Fabricators, Agricultural Maintenance/Repair, Power Sports Shops, Government Municipalities, Aerospace, Post Processing, Military Service/Repair

Product Highlights

Multi-Stage filtering utilizing (1) a synthetic fiber pre-filter, (2) stainless mesh drain screen, and (3) canister filter for fine particulates.

Large format sink with a 26" x 15.5" x 8.5" sink volume.

Remote reservoir basin design to isolate the solution and minimize evaporation.

Lift-out, All-in-one Module Assembly for ease of maintenance and service without having to drain the machine.

EM6000 Manual Tank Washer

Product Data Sheet

Features

- Heavy-duty roto-cast thermoplastic cleaning basin
- 45-gallon tank capacity
- Lift-off sink for direct solution access
- Flexible wash spigot with flow control
- Flow-through wash brush with flow control
- Closeable sink drain for sink fill and part soaking
- Heating module
 - 1000W Heating
 - Automatic Thermostat Control
 - Manual Heating On/Off
 - Heating pre-set at 115°F
- Wash pump w/ Viton seal 210 GPH
- Built in GFCI protection
- Lid spring with integrated fire safety fusible link.
- Multi-filter system with synthetic fiber, stainless mesh, and inline 100 micron canister filter.

Standard Accessories

- Flow-Through Wash Brush
- Synthetic Fiber Pre-Filter
- Closeable drain for soak feature
- 100 Micron Canister Particulate Filter

Optional Accessories

- Light Kit
- Rolling Cart Kit

Product Dimensions

Overall Dimensions: 29" D x 39" W x 56.25" H
Shipping Dimensions: 30" L x 40" W x 35" H
Shipping Weight: 80 Lbs.

Light Kit

Rolling Cart Kit

Electrical Configurations

Voltage	Phase	Freq	Current	Main Fuse	Heating Wattage
115 V	1 PH	60 Hz	11 A	N/A	1075 W
