

AMERICAN FORGE & FOUNDRY

12-TON TRUCK STAND SET

MODEL 3312C

DESIGN – A wide pyramid base provides stable support while welded foot pads keep the stands from sinking into soft ground or asphalt. Ratcheting teeth lock into place and provide multiple height adjustments. A large saddle provides a generous surface area for improved contact with the load.

A FEATURES – Made with a double-lock technology. The regular handle lock is combined with an added safety pin to provide maximum operator safety.

MATERIALS – High-grade forged steel construction and a ductile iron support column provide superior strength and durability.

STANDARDS – Meets ASME PASE 2019

Model	Capacity (tons)	Low Height	High Height	Base Dimensions
3312C	12	19-1/4"	28-1/3"	12" x 9-3/4"
