

M-1500C-HR

High-Rise, Motorcycle / ATV Lift

1,500 lbs. Capacity

The improved M-1500C-HR continues to be a high-quality & versatile, high-rise scissor lift, but now with updated design improvements increasing strength & durability, along with an added portability feature! The M-1500C-HR is designed to safely lift and service most motorcycles, all-terrain, snowmobile & powersport vehicles, while powered by a high-quality air hydraulic pump requiring only compressed air to raise the lift for a max capacity of 1,500 lbs. and extended lift height of 38.5". Extra platform width is provided with included side extensions, widening the platform to 50", while matching the 88.5" platform length. The M-1500C-HR also features heavy duty diamond plate platform, stabilizer bar, updated dual side manual lock release, rear drop out panel, while also including a motorcycle vise & rear service support poles. Designed for multi-use applications, the M-1500C-HR can be the perfect service lift solution for power sport service & repair shops, power sport dealers & residential garages.
