# CI5 and CI10 Pump Features

# Industrial Series

## 5-15 HP Large Industrial Duty Air Compressors

Industrial Gold industrial series compressors are designed for automotive and industrial applications. The CI5 and CI10 pumps are manufactured for durability and long life. The units feature some of the most heavy duty components found in piston compressors today. The units run at a low RPM to provide reliable air for your application.

- Solid cast iron pump
- Disc and spring valves
- Centrifugal unloader
- Low pump rpm
- Oil sight glass
- Oil drain and fill on front of compressor pump
- Heavy duty NEMA motors
- OSHA style totally enclosed belt guard
- ASME code receivers
- Needle bearings
- Magnetic motor starter
- Stainless flex air lines
- Accessories Available**
  - Hour meter
  - Belt guard mounted aftercooler
  - HOA operating switch
  - Automatic tank drain
  - Alternating relay
  - Intake silencer
  - Low oil monitor
- Dual control constant run
- Rubber mounting pads
- TEFC motor
- Nema 4 control enclosure
- Explosion proof motor
- Explosion proof control enclosure

CI5 PUMP									
Model	HP	CFM @ 175 PSI	CFM @ 100 PSI	Tank	Pump	Vert/Horz	Voltage	Amp Draw@ 230 Volt	Weight

All industrial stationary units require magnetic starter.

# Platinum Series

## Stationary Commercial Compressors

Industrial Gold Platinum Series compressors feature a unique option package that makes your new compressor simpler to maintain while delivering higher quality air. The Platinum options are available on all stationary compressors.

**1 Belt guard cooler** delivers air at a much cooler temperature to the receiver. Compressed air that goes into the receiver cool drops more moisture in the receiver. The moisture is then automatically drained from the receiver. That means less equipment damaging moisture is sent into your air lines.\*

**2 Low oil monitor** will help to keep you notified when you need to add oil to the compressor pump.

**3 Tank discharge ball valve** makes draining fast and easy.

**4 Vibration isolators** are designed to protect your receiver from damage caused by vibration when the compressor is running.

**5 Automatic tank drain** will help with the daily tank maintenance so that you don't have to.

**6 Stainless steel flex lines** for added durability.

\* Belt guard cooler not included on 5hp models

### Accessories Available for Elite Units

- Hour meter
- HOA operating switch
- Alternating relay
- Intake silencer
- Dual control constant run

- Rubber mounting pads
- TEFC motor
- Nema 4 control enclosure
- Explosion proof motor
- Explosion proof control enclosure
