

2 TON ALUMINUM SERVICE JACK

A 49 pound lightweight jack designed for the track side racer or automotive enthusiast that want quick operating performance.

- RapidRise® hydraulic power unit with dual pump pistons that raise the lift arm to the load quickly
- Thick frame side plates and reinforced lift arm for added strength, chassis torsion control, and durability
- Angular positioned pump pistons provide maximum effective pump stroke when jack is completely under the vehicle
- Wiper seals protect hydraulic system from contaminants
- Overload and bypass safety valves prevent the jack from being used beyond its rated capacity and prevent ram overextension
- Ball bearing mounted rear swivel caster wheels and wide track front wheels for easy maneuverability
- Side mounted handles for carrying and easy positioning
- Rubber saddle protector insert prevents scratching and gouging of under car components
- Two piece handle for storage; quick lock feature for engagement and disengagement of handle halves
